

**Agreement for the production of private label / packaging**

between customer ... ..

and

**Delipet AG** (supplier), Bärenmattenstrasse 15, CH-4434 Hölstein

**Purpose:** Delipet AG provides private label products for the customer. The customer must finance the design and cliché costs of packaging and partial financing of the cost for the packaging materials (bags, films, trays / Collis, cartons, Floor stand, ¼ pallet display) according to the following specifications:

**Costs of design and clichés:** 100% charged to the customer

**Cost allocation, and calculation basis for packaging materials:**

- The total package cost is financed to 50% from customers and 50% of Delipet. Delipet provides the customer with 50% of the replacement value of the packaging materials invoiced
- Financed by the customer part is calculated on the planned sales volume per bag and the product price will be reduced by this amount invoiced
- For the pre-packaging material, a delivery period is agreed. In this respect, after the expiry of that deadline packaging material is still present, the customer agrees to pay the remaining purchase value of packaging material in a payment to Delipet. The same procedure applies for a delivery setting or when changes to the packaging. Subsequently, the ordinary product price is invoiced.
- Calculation example:
 

Product price	5.-
• Cost bag 100% = -.14( 50% at the expense of the customer)	-.07
• Invoiced Price	4.93
• Invoiced price after the end of the delivery period	
Payment of the remaining amount of packaging ./.	-.07      4.86
- The amounts of packaging material delivered exactly be held at goods receipt and apply as a starting point for the stock, and for the calculation and invoicing.

**Minimum-amount payments for an economic calculation**

Small films	10 000 meters gives about 40 000 packages
Medium films	10 000 meters gives about 30 000 packages
Big Films	10 000 meters gives about 25 000 packages
Stand-up pouch small	10 000
Standing floor large	10 000
Trays, Collis	10 000 range, depending on the number of content
Product labels	10 000

**Print data:** The packaging and labels can be printed with the basic product data. The variable product data such as declaration, composition analysis, feeding recommendation, expiry date, batch code printed directly on the packaging. Delipet controls the material to print with each new print. The final print released by the customer. The responsibility for a lawful declaration is in the customers hand.

Agreement:      **Customer** .....      **Delipet AG**
